KISSED BY LIGHT STUDIO
FINE ART PHOTOGRAPHY

I.

HI! I AM LORA

Welcome to Kissed By Light!

Over a decade ago, following a life long passion for photography, I have started a wonderful journey and founded this photo studio with a goal to help empower women through photographic art. I believe that photography has the power to capture the unique, beautiful spark deep within every subject and it is mine and my team's greatest goal to help emphasize and unveil that incandescent beauty in every capture.

I made sure that every one of our sessions is designed to nurture both from within and out, with a variety of little treats awaiting!

MEET OUR TEAM

Over the years, Kissed By Light Studio has put together a team of very talented and dedicated ladies, each highly regarded in their respective fields. Creatives through and through, together, they made this studio a place we are proud to work at. Our team is dedicated to creating makeover days, specially tailored for each woman to enjoy and unwind. Our safe, welcoming, and beautiful environment pays an homage to the classic boudoir rooms of times gone by, and through the power of photography, we strive to commemorate beauty, elegance, and timeless style.

POSING GUIDANCE

99% of our clients have never had any modeling experience, nor do they need it to shine in their photos. We have taken it upon ourselves to create and tailor the most striking poses so that there is no guess work, only results.

Every session is designed to be simple, with every pose, angle, and set up tailored uniquely to you. Our photographer and assistant will gently guide you through every step.

XI.

MAKEUP & RETOUCHING

We believe that success of a photo session begins with makeup, hair, and most importantly, how enjoyable the entire experience is! Our team is dedicated to making each session into an exciting day of pampering and celebration. We serve refreshments, do a spa grade face mask, and, of course, create a makeup and hair look that brings out your beauty at its most powerful. To take it to the next step, you may opt in for our professional manicure service.

After the session, our all-female team of expertly skilled digital artists perform magazine quality retouching on all of the images to be showcased at your viewing session. Our carefully developed techniques were meticulously honed to reveal natural beauty and character.
