

I.

HI! I AM LORA

Welcome to Kissed By Light!

Over a decade ago, following a life long passion for photography, I have started a wonderful journey and founded this photo studio with a goal to help empower women through photographic art. I believe that photography has the power to capture the unique, beautiful spark deep within every subject and it is mine and my team's greatest goal to help emphasize and unveil that incandescent beauty in every capture.

I made sure that every one of our sessions is designed to nurture both from within and out, with a variety of little treats awaiting!
